

Change Management Foundation - accredited training with exam

Change Management™ course is intended for Change Leaders, Project Managers and team leaders – all people who introduce changes in a team and organization during their everyday work. It is valuable for everyone who would like to be acquainted with issues related to phenomena which accompany changes in individual, team and organizational context. The course prepares for international APMG International - Change Management™ Foundation exam.

Training recipients

- Anyone interested in understanding the basic principles of achieving successful organizational change, transition or transformation.
- Team members involved in organizational change, transition or transformation projects.
- Professionals pursuing the Change Management Practitioner certificate – for which the Change Management Foundation certificate is a pre-requisite.

Benefits

- Understanding major drivers of change and the organisational context of a change including the effects of organisational culture.
- Awareness of knowing how to support people who are in key change roles (Change Agents, Change Leaders, Change Sponsors) and help them build an effective change team.
- Building an understanding of the importance of psychological safety in carrying out change.
- Increasing the effectiveness of team leadership and supporting changes on individual and organizational level.

- Gaining knowledge on stakeholder management, or ways to develop appropriate strategies and communication plans toward them.
- Appreciating the influence which change has on organization, as well as understanding how to select a proper delivery strategy.
- Identifying different types of measurement that can be used to track the effectiveness of change management activities.
- A possibility to obtain international Change Management™ Foundation certificate.
