A+ Core 1 & 2 CertMaster Perform

CompTIA A+ Exam series code: 220-1201 (Core 1) and 220-1202 (Core 2)

Master hands-on technical support skills and prepare for real-world challenges with A+ Core 1 and Core 2 CertMaster Perform. This comprehensive course combines instructional lessons, video, hands-on practice, and scenario-based exercises to help you apply your knowledge in practical environments. Aligned with A+ Core 1 and Core 2 exam objectives, it's designed to reinforce your skills and prepare you for the CompTIA A+ certification.

- **Skill development:** Build skills and knowledge of a help desk technician through a proven learning progression design that emphasizes context and practice.
- **Real-world tasks:** Complete activities like installing motherboards, troubleshooting hardware, configuring networks, managing security, troubleshooting software, and supporting devices.
- **Interactive labs:** Gain hands-on experience in both simulated and real environments that replicate real-world IT scenarios.
- **Instructional lessons:** Learn with narrative content, videos, and guided labs to build foundational knowledge.
- **Skill tracking:** Monitor progress with assessments, quizzes, and actionable feedback to ensure continuous improvement.
- **Year-long access:** Study anytime with 12 months of training, redeemable within 12 months of purchase

Training recipients

Start your tech career with CompTIA A+, the industry standard certification for entry-level roles. Trusted

by employers worldwide, A+ builds foundational skills in hardware, software, networking, troubleshooting, and security. The latest version, V15, is updated for today's technology and prepares you for roles like IT support specialist and help desk technician through two exams—Core 1 and Core 2.

- Help Desk Technician
