CompTIA Project+ CertMaster Learn+Labs

CompTIA Project+

Exam series code: PK0-005

Master project management skills and prepare for real-world challenges with Project+ CertMaster Learn and Labs. This comprehensive course combines instructional lessons, video, hands-on practice, and scenario-based exercises to help you apply your knowledge in practical environments. Aligned with Project+ exam objectives, it’s designed to reinforce your skills and prepare you for the CompTIA Project+ (V5) certification.

- Skill development: Build skills and knowledge of an IT project manager through a proven learning progression design that emphasizes context and practice.
- Real-world tasks: Complete activities like managing the project life cycle, coordinating small- to medium-sized projects, and managing resources and stakeholders.
- Interactive labs: Gain hands-on experience in both simulated and real environments that replicate real-world IT scenarios.
- Instructional lessons: Learn with narrative content, videos, and guided labs to build foundational knowledge.
- Skill tracking: Monitor progress with assessments, quizzes, and actionable feedback to ensure continuous improvement.
- Diagnostic readiness: Start with an initial diagnostic to focus your learning on areas needing improvement.
- Year-long access: Study anytime with 12 months of training, redeemable within 12 months of purchase

Training recipients

CompTIA Project+ is the only industry certification designed to teach IT pros the entry-level skills they need to successfully manage small to medium-sized projects. It showcases professionals' capabilities in planning, executing, and delivering projects on time and within scope while ensuring effective communication and resource management. CompTIA Project+ focuses on practical, hands-on skills to tackle real-world project challenges.
