ISTQB Certified Agile Tester Extension

Training recipients

The exam is intended for software testers who want to validate their knowledge of testing practices in Agile projects by obtaining the ISTQB® Certified Agile Tester Extension (CATE) certification.

Benefits

By successfully passing the ISTQB® Certified Agile Tester (CATE) exam through **GASQ**, you will:

- **Earn an internationally recognized ISTQB® certification**, valued by employers and software testing professionals worldwide.
- **Validate your expertise in Agile testing**, demonstrating your ability to apply testing practices effectively within Agile software development teams.
- **Increase your career opportunities**, as ISTQB certifications are widely recognized by organizations seeking qualified QA and testing professionals.
- **Build a solid foundation for further ISTQB certifications**, including Advanced and Specialist levels.
- **Receive a lifetime certification** – the certificate does not expire and requires no renewal.
- **Gain recognition of your professional competence**, proving your understanding of Agile principles, testing techniques, risk-based testing, and collaboration within cross-functional teams.
- **Take advantage of flexible exam options**, including online remote proctoring available through GASQ.

Expected preparation of the participant

- Basic experience in software testing.

Recommended qualification:

- Candidates taking the **ISTQB® Certified Agile Tester Extension (CATE)** exam must hold the

ISTQB® Certified Tester Foundation Level (CTFL) certification.
