

ITIL® 4 Specialist: Create, Deliver and Support (CDS) - accredited training with exam

A 3 day ITIL® Specialist: Create, Deliver & Support (CDS) training is one of the 4 advanced trainings on the way to obtain the title ITIL®4 Managing Professional (MP). ITIL®4 CDS training is something more than just the description of practices or processes - it's "a glue", which cements the whole service life-cycle in order to deliver a true and solid value through services. It is a rough guide for those wh work with a vast range of IT-enabled. It consists of clear guidelines of how to cooperate and coordinate efforts for designing, creating and supporting integrated and successful products and services. The aim is to work with an IT technology changing demand into value, without using separate siloses with technical functions, but with quality, synergy and integrity.

Purpose of the training

IT service management practitioners, who plan to obtain ITIL Managing Professional (MP) certificate.
 People responsible for handling digital services or IT-enabled, as well as complex support and delivery;
 Typical roles in organization: Service Desk Manager and his employees; Head of IT Infrastructure/ IT Infrastructure and Technical Support Manager; Problem Manager; Change Manager; Release Manager; DevOps Specialist; Continuous Improvement Programme or Project Manager; Service and Support Analyst; Process Owner; Service Level Manager, Service Owner etc.

Benefits of completing the training

A vast understanding of how to create, deliver and support services pursuant to the latest and best market practices.

Understanding how to plan and build Service Value Stream in order to create, deliver and support services.

Understanding how appropriate ITIL practices contribute to creating, delivering and supporting services within Service Value System (SVS), as well as value streams.

Examination method

The participants receive vouchers, which are valid for 6 months, for online exam.

Having completed the training, the participant receives an e-mail with guidelines how to register on the exam. The date is determined directly with PeopleCert, with the use of participant's account.

Online exam is conducted in the presence of proctor – a person from PeopleCert, who connects remotely with training participant's desktop and observes the course of exam via Internet camera.

The person who takes the exam is obliged to show the place where he is going to write the exam to proctor via Internet camera. Proctor checks if there are not any other persons and study aids in the room.

Exam description

- Exam duration: 90 minutes.
