

ITIL®4 Foundation - accredited training with exam

ITIL®4 introduces an updated version of the IT service management model. Version 4 acquires selected elements from the Practitioner level, especially the principles. ITIL®4 also introduces, in the spirit of systemic thinking, the way of managing products and services as value chains, from the expressed demand to measurable value. ITIL practices are embedded in a coherent ecosystem, in which products and services are delivered in an uninterrupted cycle of creation, testing, implementation, feedback and improvement.

Training recipients

The training is addressed to:

- Managers and employees of IT organizations planning to improve internal processes based on the best practices of ITIL®4, employees of companies providing IT services
- People who want to improve their qualifications in IT service management and pass the exam "Foundation Certificate in IT Service Management" (ITIL®4 Edition)

Benefits

- Understanding the concepts, selected models and concepts used in ITIL®4
- Understanding the service value system and discussing the practices defined in the ITIL®4 library.

As a supplement, we recommend:

- ITIL-A Apollo 13 - an ITSM case experience™
- Cobit©5
- Lean IT
