training code: AZ-120 / ENG DL 3d / EN

Planning and Administering Microsoft Azure for SAP Workloads

Expected preparation of the participant

Azure solutions for SAP administrators and architects should have a very good knowledge of SAP, SAP HANA, S/4HANA, SAP NetWeaver, SAP BW applications, OS servers for SAP applications and databases. Before attending the course it is recommended that participants complete Azure administrator training (AZ-103) or Azure Solutions Architect (AZ-300) beforehand, as well as SAP HANA and Linux.
An ability to use English materials.
To make work more convenient and training more effective we suggest using additional screen. Lack of extra screen does not make it impossible to participate in the training, but significantly influences the convenience of work during classes
