PRINCE2® Agile Practitioner - accredited training with exam

Training recipients

The training is addressed to people who already have PRINCE2® certification at the Foundation level, responsible for launching, implementing and supervising the course of projects (regardless of the industry) who want to supplement their competences so that they can use the PRINCE2® methodology in an agile way.

Benefits

The aim of the training is to familiarize students with knowledge in the field of project management based on the PRINCE2 Agile® methodology. The knowledge gained during the training will allow current project managers who know and apply the PRINCE2® method to use it in an agile way. PRINCE2 Agile® is an innovative approach to project management that helps people to work together more effectively to achieve business goals.
 Ends with the Practitioner exam, the opinion of which confirms internationally recognized qualifications in the application of best practices in managing any project – regardless of its size, scale or industry. The PRINCE2 Agile® certificate proves a broad understanding of the philosophy of agile management and the ability to combine it with the PRINCE2® methodology.
