PRINCE2® Project Management Practitioner (v7.2) – accredited eLearning with exam

PRINCE2® Project Management Practitioner is an online course developed by PeopleCert that prepares participants for the advanced level of certification in the PRINCE2® methodology.The PRINCE2® methodology is one of the most recognizable and widely used project management methods in the world. It is based on proven principles, processes, and practices that can be adapted to projects of various types and scales. The Practitioner level focuses on the practical application of knowledge in real-world projects. This interactive course, consisting of three workshops, offers participants the opportunity to learn at their own pace and on their own schedule over a 12-month period.

Training recipients

This course is designed for individuals who hold the PRINCE2 Project Management Foundation certification and wish to move from understanding the methodology to applying it effectively. It is specifically for:

- Project managers,
- Members of project teams and steering committees,
- PMO staff, department managers, team leaders, and product managers,
- Specialists in IT, HR, finance, and marketing, as well as engineers and analysts,
- Organisations that want to implement a common standard for project management.

Benefits

Benefits for course participants:

- Acquiring the skills to effectively manage a project – applying and adapting PRINCE2® to any project, regardless of its size, complexity, or industry,
- Increasing confidence in making project decisions by using the 7 principles, practices, and processes of PRINCE2® as project management tools,
- Improving the effectiveness of leading a project team by developing communication, collaboration, and stakeholder management skills,
- The ability to manage a project within scope, time, and budget, and to respond to changes and risks,
- The ability to adapt the methodology to the organisation – modifying processes and practices to suit the company and the project,
- Comprehensive preparation for the PRINCE2® Project Management exam and the opportunity to earn an international certification confirming practical project management skills.

Benefits for the organisation:

- Standardization of project work – a uniform model of roles, responsibilities, and reporting,
- Increased effectiveness in implementing strategic initiatives through knowledge of the strategic structure and skilful project control,
- Improved communication and collaboration within the project, transparency of progress, and a shared understanding of project objectives.

Training program

1. Introduction to PRINCE2®
2. PRINCE2 Project Management Workshop – Part 1
3. PRINCE2 Project Management Workshop – Part 2
4. PRINCE2 Project Management Workshop – Part 3
5. Course Review

Expected preparation of the participant

PRINCE2® Project Management Foundation certificate is required.

Examination method

In addition to access to the course, the participant receives an online exam voucher valid for 12 months. The voucher must be redeemed on the PeopleCert platform. The online exam is remotely proctored by a PeopleCert representative who connects to the candidate’s desktop and monitors the examination via camera. At the proctor’s request, the candidate must use the camera to show the room in which the exam will take place. The proctor verifies that no third parties or unauthorized study aids are present in the room.

Duration

1 days / 8 hours
