Professional Scrum Master™ - Advanced

Professional Scrum Master™ – Advanced is a course designed for experienced Scrum Masters seeking to deepen their skills. Students will explore:

- How Scrum principles and values guide decision-making.
- How to foster an environment where agility thrives.

An advanced class created to support Scrum Masters in their professional journey. This course is full of practical tools and facilitated exercises looking at the challenges that Scrum Masters face in their work with an organisation, a Product Owner, and a Scrum Team.

The course teaches Scrum Masters to apply various stances—teacher, coach, mentor, facilitator, change agent—effectively based on team needs. Additionally, it provides insights to gain credibility with management and stakeholders by demonstrating the benefits of Scrum and Agile.

Training recipients

- Scrum Masters with at least one year of experience, looking to grow their knowledge and abilities in this role
- Agile coaches willing to expand their toolbox of effective methods of working with teams, Product Owners, managers, and other stakeholders

Benefits

- Building confidence in daily work as a Scrum Master with Scrum Teams, Product Owners, and the organization
- Learning the stances of the Scrum Master and understanding when and how to apply them
- Expanding the Scrum Master's toolkit with practices for working with teams and managers

Training program

1. Introduction
2. The Role of Scrum Master
3. Scrum Master's services for the Scrum Team
4. Scrum Master's services for the Product Owner
5. Scrum Master's services for the Organisation
6. Summary

Expected preparation of the participant

There are no formal prerequisites for the participants of the course. Prior completion of the Professional Scrum Master™ course or holding the PSM I certificate is recommended. This course does not teach Scrum; therefore, you need to understand the basics of the framework.

Training Includes

- Certified materials
- Voucher for the PSM II exam

Language

- Training: English
- Materials: English
- Exam: English

Examination method

The Professional Scrum Master II (PSM II) exam is an online assessment. Participants of the PSM-A course receive a one-time code to access the test within five workdays after completion of the course. It is not mandatory to take the assessment; however, it is the only way to obtain the PSM II certificate.
The code for the exam doesn't expire. However, if you take the test within 14 days from the moment of receiving the code and you fail, Scrum.org will issue yet another code for the second (and last free) attempt.
More information about the assessment is available on https://
https://www.scrum.org/assessments/professional-scrum-master-ii-certification

Duration

2 days / 16 hours

Examination description

- Duration of the exam: 90 minutes
- Required passing score: 85%
- Number of questions: 30
- Type of questions: multiple choice, multiple answer, true/false
- Number of allowed exam attempts: 2 (under the condition that the first attempt needs to be unsuccessful and take place within 14 days from the moment of receiving the access code)
