

# Basic ABAP Programming

- This course is an introduction to ABAP programming on any ABAP platform. The course will equip you with the basic knowledge of the development process, development tools (ABAP development tools for Eclipse), and modern expression-based and object-oriented ABAP coding that you need to write applications in ABAP. You will cover all the techniques that you need to create a simple application using the ABAP RESTful application programming model. The material from this course is essential foundation knowledge that you will need both for further ABAP programming classes and in your own self-study. This course is also available in a self-paced learning format on [learning.sap.com](https://learning.sap.com).

## Odbiorcy szkolenia

- Developer
- Development Consultant
- Technology Consultant

## Korzyści

- This course will prepare you to:
  - Learn elementary programming in ABAP

## Program szkolenia

- Working with the ABAP development environment

- Basic techniques in the ABAP language
- Simple object-oriented concepts
- Using ABAP SQL to access the database
- Simple and complex data types
- Business objects and entity manipulation language
- The ABAP RESTful application programming model

## Oczekiwane przygotowanie uczestnika

### Essential

- none

### Recommended

- Elementary knowledge of a modern programming language such as Java, Node.js, C# or Python

## Czas trwania

4 dni / 30 godzin

## Język

Materiały: angielski

Szkolenie: polski
