- This course will provide you with instruction on creating materials, bills of material, work centers and routings using SAP S/4HANA.

Odbiorcy szkolenia

- Application Consultant
- Business Process Architect
- Business Process Owner / Team Lead / Power User
- Program/Project Manager
- Solution Architect
- Technology Consultant

Korzyści

- This course will prepare you to:
  - Understand materials, bills of material, work centers and routings in the scenario of manufacturing and product management

Program szkolenia

- Material
  - Work with materials
  - Assign documents and classify materials
  - Manage materials

- Work with product master
- Bills of Material (BOMs)
  - Work with material BOMs
  - Mass changes and browser
  - Analyze BOMs
- Work Centers
  - Work with work centers
  - Create capacities for a work center
- Task Lists
  - Explain the structure of a task list
  - Create material assignments and component allocations
  - Create sub-operations and user-defined fields
  - Create product versions
  - Create production resources and tools
  - Analyze and change task lists
  - Work with the Engineering Workbench
- Advanced Bill of Material Functions
  - Describe phantom assemblies
  - Create Co- Products and alternative components
  - Create multiple and variant BOMs
  - Change BOMs with change numbers
- Advanced Routing Functions
  - Model sequences and alternative manufacturing processes
  - Creating reference operation sets
  - Apply lead-time Scheduling and update a material
  - Schedule time elements and reduction
  - Change Routings with change numbers
