

Basics of Customizing for Financial Accounting: GL, AP, AR in SAP S/4HANA

- The course provides an overview of how to implement Financial Accounting capabilities of SAP S/4HANA in order to cover the related business requirements. You will gain the mandatory foundation knowledge required in order to understand and configure business processes for the SAP S/4HANA financials module in the areas of general ledger, accounts payable, and accounts receivable accounting. For the Master Data, the Document Control/Posting Control and Financial Document Clearing you will practice some configurations and verify the result by using the application.
