Exploring Business Processes for Supply Chain Execution in SAP S/4HANA Cloud

- In this course the key business processes that can be found within the Supply Chain Execution area of the SAP S/4HANA Enterprise Management solution are discussed. Both inbound (goods receipt) and outbound (goods issue) processes are included. Organizational units, master data and the monitoring of these processes, as well as integration with the Extended Warehouse Management (EWM) and Transportation Management (TM) solutions of SAP, are also discussed. Examples of other topics included in the course are Yard Management and Value-added Services (VAS).

Training recipients
