

IASSC Lean Six Sigma Green Belt-accredited training with exam

Lean Six Sigma is the most popular business performance methodology in the history of corporate development.

The Lean Six Sigma (LSS) certifications are designed to support corporate in their mission to improve customer satisfaction, boost performance levels, and shorten the time-to-market. Self-employed professionals and consultants are looking to benefit from the above-average salary level provided by Lean Six Sigma certification and its potential for cross-industry application.

Lean focuses on efficiency through the minimization of waste, errors, and delays, while Six Sigma focuses on quality and consistency through processes improvement and variation reduction. The combination guarantees cost and time efficient products and services of the highest quality.

Lean Six Sigma is made of three levels, or 'belts', that provide a complete array of techniques for optimising production processes, cost efficiency, and product quality.

Training recipients

Lean Six Sigma is aimed at professionals wishing to understand and apply the Lean Six Sigma principles and instruments in order to work effectively with, or as a member of, a process improvement team. Lean Six Sigma is suitable for:

- Improvement Managers,
- Operational Line Managers,

- Team Managers,
- Project Managers,
- Programme Managers,
- Change Managers,
- Finance Managers,
- IT Managers,
- HR Managers,

- analyses and solves quality problems and is involved in quality improvement projects.
- A Green Belt is someone with at some work experience who wants to demonstrate his or her knowledge of Six Sigma tools and processes.

Training program

1. Define Phase
 - The Basics of Six Sigma
 - The Fundamentals of Six Sigma
 - Selecting Lean Six Sigma Projects
 - The Lean Enterprise
2. Measure Phase
 - Process Definition
 - Six Sigma Statistics
 - Measurement System Analysis
 - Process Capability
3. Analyze Phase
 - Patterns of Variation
 - Inferential Statistics
 - Hypothesis Testing
 - Hypothesis Testing with Normal Data
 - Hypothesis Testing with Non-Normal Data
4. Improve Phase
 - Simple Linear Regression

- Multiple Regression Analysis
 - Designed Experiments
 - Full Factorial Experiments
 - Fractional Factorial Experiments
5. Control Phase
- Lean Controls
 - Statistical Process Control (SPC)
 - Six Sigma Control Plans

Expected preparation of the participant

No special preparation of the students is required.

Training Includes

The training price includes:

- Accredited training materials
- Voucher for the online exam

Additional options:

- Take2 re-sit exam: 200 zł

Attention: purchasing this option is only possible through Altkom Academy before the training.

Language

- Training: English
- Materials: English
- Exam: English

Examination method

The participants receive vouchers, which are valid for 6 months, for online exam.

Having completed the training, the participant receives an e-mail with guidelines how to register on the exam. The date is determined directly with PeopleCert, with the use of participant's account.

Online exam is conducted in the presence of proctor – a person from PeopleCert, who connects remotely

with training participant's desktop and observes the course of exam via Internet camera. The person who takes the exam is obliged to show the place where he is going to write the exam to proctor via Internet camera. Proctor checks if there are not any other persons and study aids in the room.

Czas trwania

4 dni / 28 godzin

Examination description

Six Sigma Green Belt exam:

- Exam duration 180 minutes
- 100 multiple choice questions
- Required 70%, 70 correct answers
- Closed book
- Online version (with Proctor)
