# Implementing Management Accounting in SAP S/4HANA Cloud - Academy

This course is designed for new consultants seeking thorough knowledge of Management Accounting in SAP S/4HANA Cloud Public Edition and aiming to pass the associate certification exam (C_S4CCO). The exam is not included in this academy and has to be booked individually. This academy can serve as a useful step towards your certification. Additional self-paced courses at learning.sap.com might be necessary to fully prepare – please check the "how-to-prepare" section of the certification description. Please ensure that you meet the prerequisites specified below before you enroll, as failure to do so may hinder your capability to fully engage with the course content.

## Odbiorcy szkolenia

- Consultant

## Korzyści
