

# Intermediate ABAP Programming

- This course follows on from the Basic ABAP Programming course. In it, you will use analysis and test tools to investigate ABAP code. You will then learn various techniques that you can use to improve the performance, style, and structure of your code. This course is also available in a self-paced learning format on [learning.sap.com](https://learning.sap.com).
- The course is held on SAP BTP, ABAP environment. However, the content is equally suitable for SAP S/4HANA Cloud, ABAP Environment and SAP S/4HANA 2020 or later.

## Odbiorcy szkolenia

- Developer
- Development Consultant
- Technology Consultant

## Korzyści

- This course will prepare you to:
  - Improve your ABAP knowledge

## Program szkolenia

- Analyzing and testing code
- Data types and type conversions

- Processing character fields
- Using code pushdown in ABAP SQL
- Improving the performance of internal tables
- Implementing authorization checks
- Designing effective object-oriented code
- Defining and working with exception classes
- Adding documentation to ABAP code

### Oczekiwane przygotowanie uczestnika

Essential

- [S4D400](#)

### Czas trwania

5 dni / 38 godzin

### Język

- Materiały: angielski
- Szkolenie: angielski
