Introduction to SAP S/4HANA Cloud Public Edition Administration

- This course provides an overview of administrative tasks and responsibilities within SAP S/4HANA Cloud Public Edition. The course will concentrate on the typical responsibilities of a system administrator, including system request and access. Using and configure the SAP Fiori Launchpad, describe and use the Identity and Access Management, enabling unattended printing, scheduling and monitoring application jobs, transport management, and connecting SAP S/4HANA Cloud Public Edition with SAP Cloud ALM for monitoring purposes.

Odbiorcy szkolenia

- System Administrator
- Technology Consultant
- System Architect
- Enterprise Architect

Korzyści

- After completing this learning journey Administrators will have the capability to carry out fundamental administrative tasks in an SAP S/4HANA Cloud public edition when setting up the environment to satisfy customer requirements.

Program szkolenia

- Introduction
  - Stakeholders: Identify main stakeholders and their roles

  - Business Roles and Catalogs: Introduce business roles, catalogs, and restrictions
  - Monitoring and Analysis: Use relevant apps
- Output Management
  - Difference: Explain output management vs. output control
  - Printing Infrastructure: Outline for scenario pull integration
  - SAP Cloud Print Manager: Install and configure for pull integration
  - Print Queues: Create and maintain
  - Scheduling Application Jobs
  - Use: Explain application jobs´ purpose
  - Job Templates: Create templates and application jobs
  - Authorization Concept: Explain for application jobs
- Monitoring Capabilities
  - SAP Cloud ALM: Describe nature and main features
  - Cloud ALM Connection: Connect SAP S/4HANA Cloud Public Edition, understand communication management
  - SAP Focused Run Reverse Proxy: Introduction
  - System Landscape and Transport Management
  - Staged Development: Explain necessity
  - SAP Central Business Configuration: Summarize functions
  - Transport Process: Describe in SAP S/4HANA Cloud Public Edition
  - Transport Requests: Classify different types
  - Transport Dependencies: List reasons

Oczekiwane przygotowanie uczestnika

Essential
- Basics in data processing
- Basic knowledge of cloud technology

Recommended
- none

Czas trwania

2 dni / 14 godzin

Język

Materiały: angielski
