

ITIL® Foundation Bridge (version 5) - accredited training with exam

ITIL® Foundation Bridge (Version 5) introduces candidates to the key concepts of digital product and service management that are not addressed in ITIL® 4 Foundation and establishes a common language for effective practice across organizations. The course provides an overview of the ITIL® (Version 5) framework, including updates and additions to core models and fundamental concepts. It also explains how these elements are used to create, deliver, and continually improve products and services. ITIL® Foundation Bridge (Version 5) enables candidates to build on their ITIL® 4 knowledge and understand how value can be co-created through the effective management of products and services. The training also explains how the ITIL framework has evolved to support modern technologies, data-driven decision-making, automation, artificial intelligence, and contemporary ways of working, while remaining adaptable to different organizational contexts and levels of maturity.

Training recipients

- Individuals holding an ITIL® 4 Foundation certificate
- Individuals holding any ITIL® 4 higher-level certification (except Cloud and Sustainability)
- Participants who want to update their knowledge and transition from ITIL® 4 Foundation to ITIL® Foundation (Version 5)

This bridge syllabus focuses exclusively on the new, changed, and expanded concepts introduced in Version 5 and does not reassess topics that remain unchanged from ITIL 4 Foundation.

Benefits

- Understand how teams and individuals contribute to creating value for internal and external customers as well as other stakeholders
- Understand how business and customer context influences technical competencies and activities
- Learn to use a common language of product and service management to improve communication within the organization and with customers partners, and suppliers,

Language

- Training: English
- Materials: English
- Exam: English

Examination method

The participants receive vouchers, which are valid for 6 months, for online exam.

Having completed the training, the participant receives an e-mail with guidelines how to register on the exam. The date is determined directly with PeopleCert, with the use of participant's account.

Online exam is conducted in the presence of proctor - a person from PeopleCert, who connects remotely

with training participant's desktop and observes the course of exam via Internet camera. The person who takes the exam is obliged to show the place where he is going to write the exam to proctor via Internet camera. Proctor checks if there are not any other persons and study aids in the room.

Czas trwania

1 dni / 8 godzin
