Overview SAP S/4HANA for central finance

- This course is also available in a self-paced e-learning format with an active subscription to the SAP Learning Hub, as S4F60E. SAP S/4HANA for central finance is a specific deployment option for gathering accounting data from SAP ERP systems and Non-SAP Systems into one central SAP S/4HANA system. This course provides an overview of the concept, the basic architecture and key scenarios that SAP S/4HANA for central finance covers. You will be able to explain the value proposition but also the business benefits of this solution. All that puts you in a position to validate if the solution fits to your / your customer's business requirements. This course contains several instructor demonstrations to better understand replication or reporting capabilities.

Odbiorcy szkolenia
