PowerShell Fundamentals

Authorial training.

The training is addressed to:

- Administrator,
- HelpDesk,
- IT specialist

Training recipients

The training:

- is for specialists who have no experience in any scripting language and work in Command Line.
- aims to introduce the world of scripting and opens a path for further more effective learning MS 10961. Thanks to shared projects and standalone labs participants will be able to practically use discussed topics and understand better issues related to work in Command Line.

The aim of the training:

- Learning to write PowerShell commands

Benefits

- gaining practical skills of writing PowerShell commands

The course provides participants with fundamental knowledge and skills of using Windows PowerShell, as well as focuses on features and techniques of basic command line. Knowledge gained at the course can be used to administer and automate Windows Servers, ActiveDirectory, Microsoft 365. It also provides fundamental skill of detecting and structuring commands required to execute specific task.
