# PRINCE2® Agile Foundation (version 2) - accredited training with exam

In a world where change happens quickly and frequently, it becomes essential to use methodologies that combine proven structure with flexibility. The PRINCE2® Agile v2 Foundation training is the ideal solution for individuals who want to effectively integrate the classic PRINCE2® approach with Agile methods. Participants will learn how to adapt project management to evolving needs and conditions while maintaining full control over the course of the work.

## Training recipients

The PRINCE2® Agile Foundation (version 2) course is ideal for anyone working in, or aspiring to work in, project environments — particularly within hybrid delivery settings — across all industries, from IT to marketing, finance, and the public sector.

It is especially recommended for:

- Individuals who already use PRINCE2® within their organisations and want to tailor their ways of working for agile teams and agile-driven projects.
- Agile practitioners (e.g., Scrum or Kanban practitioners) who want to expand their skill set by adding structured project management aligned with PRINCE2® Agile.

## Benefits

The latest PRINCE2® Agile Foundation (Version 2) combines the principles of the current PRINCE2® edition with enhanced and up-to-date agile guidance. This equips participants with a strong capability to operate within hybrid project environments that require both flexibility and governance.

By attending the course, you will:

- Learn how to blend PRINCE2® and Agile practices in day-to-day work, enabling more effective use of Scrum, Kanban, and other agile techniques within a structured project management framework.
- Understand how to deliver business value earlier by using iterative approaches and agile techniques that accelerate outcomes compared with traditional delivery methods.
- Increase your adaptability and ability to respond to change by learning methods that support team and process flexibility.
- Develop an agile mindset — enhancing collaboration, iterative working, empowerment, and agile-aligned decision-making.
- Learn how to integrate agile techniques with organizational processes to maintain transparency, control, and predictability.
- Gain clarity on agile roles and responsibilities, helping you collaborate more effectively in hybrid teams and communicate efficiently with stakeholders.
- Receive full preparation for the globally recognized PRINCE2® Agile Foundation certification, valued by employers worldwide.
