

PRINCE2® Agile Practitioner (version 2) - accredited training with exam

Training recipients

The PRINCE2® Agile (2025) Practitioner course is designed for individuals who already hold a PRINCE2® Agile Foundation or PRINCE2® Foundation certification and wish to progress to an advanced level of working within hybrid project environments. It is suitable for both project specialists and project leaders who want to apply PRINCE2® Agile effectively in real-world project scenarios.

This course is particularly recommended for those who:

- Manage projects or oversee their delivery and want to apply PRINCE2® in an agile manner.
- Have project experience and work with PRINCE2®, and now want to move toward the practical application of Agile techniques in real scenarios.
- Hold managerial, PMO, coordination or project team roles and want to integrate Agile practices more effectively with PRINCE2® governance.
- Work in organizations that have adopted or plan to adopt PRINCE2® Agile as their project management standard, regardless of industry.
- Want to apply the latest best-practice standards while working in a hybrid environment.

Benefits

The updated PRINCE2® Agile Practitioner (Version 2) course integrates the latest PRINCE2® principles with advanced agile guidance. Participants gain a comprehensive skill set required to operate in hybrid project environments where flexibility and control must coexist.

By attending this course, you will:

- Learn how to apply PRINCE2® Agile in real projects by analyzing scenarios and selecting appropriate techniques for the context.
- Understand how to tailor PRINCE2® Agile processes and techniques to different environments and project complexity levels.
- Strengthen your ability to assess the effectiveness of Agile roles, processes, and practices to improve

project outcomes and maintain alignment with organizational objectives.

- Gain the skills needed for agile product delivery, including the use of Scrum, iterative planning, estimation, and time-boxed delivery cycles.
- Acquire the ability to combine agile practices with PRINCE2® control, assurance, and governance mechanisms.
- Be fully prepared for the international PRINCE2® Agile Practitioner examination, confirming your capability to manage and adapt projects in hybrid environments.
- Enhance your professional profile by validating advanced competencies in one of the world's leading hybrid project management approaches.
