kod szkolenia: ZP-SDEen / ENG DL 2d

Professional Scrum Developer

The Professional Scrum Developer™ (PSD) certification validates your knowledge of how to deliver quality product using the Scrum framework while working in Scrum Teams including the application of modern Agile and DevOps practices. Earning PSD proves that you have demonstrated an understanding of the fundamentals of applying the Scrum framework as it applies to product development.

You also have demonstrated your knowledge of self-managed development, design and architecture, documentation, programming, quality, testing, forecasting and release planning, and product value as you apply Scrum to deliver valuable software products.

Training recipients

The training is for people who are actively working in Scrum to deliver products, not necessary in IT environment. Developers represent large variety of specialisations from business analysts through lawyers to marketing specialists and engineers. It is also for person who thinks on changing their carrier path to become Scrum Developer or for present or future managers of agile teams which will work in Scrum environment.
