SAP Fieldglass: Advanced Analytics

In this course, program administrators learn how to design and configure reports within SAP Fieldglass. Through a combination of lecture, demonstration, and in-app exercises, this interactive course will cover all areas of the Analytics menu including both required and optional report functionalities. Students learn how to structure and create different types of reports, charts and pivot tables. Exercises are highly emphasized to provide significant hands-on experience in the classroom.

Odbiorcy szkolenia

- Business Analyst
