kod szkolenia: SAP/FG510 / ENG

SAP Fieldglass Contingent Workforce Management

In this course, program administrators learn how to navigate SAP Fieldglass and configure administrative objects used within the Contingent module. Through a combination of lectures, demonstrations, and in-app exercises, this interactive course will cover all areas of the Contingent module, including basic reporting in the application. Students learn the purpose of the Contingent module and the related Transactional processes. Exercises are highly emphasized to provide significant hands-on experience in the classroom.

Odbiorcy szkolenia
