SAP Fieldglass: Integration Fundamentals

In this course, program administrators learn how to configure and enable SAP Fieldglass connectors. Through a combination of lecture, demonstration, and in-app exercises, this interactive course will cover the type of data that can be integrated in SAP Fieldglass, basic troubleshooting techniques and navigating the Configuration Manager options and dashboard. Students learn how different uploads and downloads are structured, from basic to complex ones. Exercises are highly emphasized to provide significant hands-on experience in the classroom.

Odbiorcy szkolenia

- Application Consultant
- Data Consultant / Manager
- Database Administrator
- Developer
- Enterprise Architect
- System Administrator
- System Architect
- Technology Consultant
