

SAP IBP for Demand

In this advanced configuration course, you will gain a solid understanding of the SAP IBP for Demand business processes including Demand sensing with Machine Learning algorithm and their associated configuration. Instructor-led training is supplemented with hands-on exercises. Do not attempt this course until you have first completed the mandatory prerequisite IBP100 – SAP IBP for Supply Chain Overview, to ensure you have attained the foundational knowledge to maximize your learning goals.

Odbiorcy szkolenia

- Application Consultants
- Business Process Architects
- Business Process Owner / Team Lead / Power Users
- Solution Architects

Korzyści

- This course will prepare you to:
 - Outline model components of SAP IBP for demand
 - Perform Data Preparation
 - Execute a mid- / long-range forecast
 - Configure Demand Planning functions
 - Work with forecast accuracy
 - Execute Demand Sensing processes

Program szkolenia

- Introduction to SAP IBP for demand
 - Explaining Demand Planning
 - Describing Model Components – Master Data Types and Key Figures
- Data Preparation
 - Cleaning Data Manually
 - Cleaning Data Automatically
- Forecasting
 - Using Forecast Profiles
 - Determining the Best Forecast Model
 - Assigning Forecast Models
 - Using Multiple Linear Regression
 - Using Composite Forecasting
 - Incorporating Market Input
 - Measuring Performance Using Alerts
- Lifecycle Planning
 - Planning product lifecycles
 - Using Phase-in and Phase-out Profiles
 - Manual Forecasting
 - Realigning Data
- Promotion Planning
 - Planning Promotions
 - Creating Promotions
 - Managing Past Promotions
- Demand Plan Release
 - Using Financial Key Figures and Pricing
 - Releasing a Demand Plan
 - Measuring Forecast Performance
 - Using Analytics and Dashboards
 - Using Snapshots
- Forecast Accuracy
 - Using ABC and XYZ Segmentation
 - Using Time Series Analysis
 - Setting up Alerts for Forecast Accuracy
 - Performing Analysis in the SAP Fiori Web UI and the Excel UI
 - Tailoring Your Forecasts
- Demand Sensing
 - Introducing Demand Sensing
 - Describing the Model Component Demand Sensing
 - Setting up Demand Sensing with Gradient Boosting (2.0) Algorithm
 - Managing Demand Sensing
 - Tailoring the Demand Sensing Algorithm

- Approving the Demand Sensing Results

Oczekiwane przygotowanie uczestnika

Essential

- [IBP100](#) – SAP IBP for Supply Chain, Overview

Recommended

- [IBP300](#) – SAP IBP Advanced Configuration

Czas trwania

2 dni / 14 godzin

Język

- Materiały: angielski
- Szkolenie: angielski
